

SEED INTAKE FORM

Thank you for being part of the *Atlantic Canada Regional Seed Bank Grower Network!* An important part of seed banking is recording the seeds' provenance and how it was grown. Please complete one section for each variety of seed you'd like to contribute to the seed bank. This info will be kept as part of our seed bank records and shared with ACORN partners in the seed bank network, including Seeds of Diversity Canada and Dalhousie University. If you have questions, please contact Stephanie Hughes at seed@acornorganic.org.

Seed Production	
Crop Produced for Seed:	
Variety Name:	
Date(s) Harvested:	
Plant population from which seed was harvested (approximately):	
Area used for this variety's seed production:	
Other simultaneous uses for this area?	
Isolation Distance Achieved:	
How did you achieve isolation? (distance, physical barriers, time isolation, etc.)	
Are neighbours growing crops that could cross-pollinate?	
In your opinion, what is the potential for cross-pollination?	None Low Some High
Additional Notes/ Comments:
