

SEED INTAKE FORM 2021

Thank you for growing seed for the *Atlantic Canada Regional Seed Bank*! An important part of seed banking is recording how it was grown. Please complete one form for each variety you'll contribute to the bank. You can share any additional info about the variety by adding pages here or sending separate files. This info will be kept as part of our seed bank records and passed on to growers who withdraw this seed from the bank in the future! Questions? Contact Steph Hughes at shughes@weseedchange.org.
